

Saw
lots of people
in the dining halls
eating alone.
They all had
headphones in.

Loneliness
in younger
generation

Higher
Smoking
rates in
younger
generation

See younger
people smoking
cigarettes. They
look like they
don't enjoy it but
rather are using
cigarettes as a
tool to distract themselves.

Everyone at a
restaurant is
on their phones.
They are all
very engrossed
on whatever
they are doing
on their phones

New
generation
can't interact
with each
other

Phenomenon
Increased
loneliness in
younger
generation (gen)
the role of
electronics to
distract seems
like a big
symptom.

Anxiety
in younger
generation

See people
venting to
their friends.
It seems the
need to help
them feel better.

Qs
Is it just electronics
or anything else?
Are electronics
the cause?

Lens
Look at evolution of
podcasts vs short for content
in the last
10 years.
